GeoPotential FEE SCHEDULE January 2007

Fees for "CONVENTIONAL UTILITY LOCATING SURVEYS"

(CONVENTIONAL UTILITY LOCATING SURVEYS consist of locating conductive utility pipes and cables such as water lines, gas lines, product lines, metal sewer pipes and power and communication cables. The results are marked on the site and the results verbally reviewed with the client.)

Hourly Fees (1 hour minimum)

- Utility Locator \$ 95.00 / hour
- Mob/Demob \$ 1.50 / mile
- Per Diem \$ 85.00 / day / person

Fees for "SUBSURFACE MAPPING SURVEYS" and "DOWN HOLE VIDEO LOGGING SURVEYS"

SUBSURFACE MAPPING SURVEYS are geophysical surveys using ground penetrating radar, magnetics and electromagnetics. The results are marked on the site and verbally reviewed with the client. Also included is a written report along with maps, profiles and a site diagram. In addition to utilities listed above MAPPING SURVEYS also include surveys for underground storage tanks, waste drums, shallow geology, groundwater, landfills, etc.)

(DOWNHOLE VIDEO LOGGING SURVEYS consists of providing a videotape of the logging session, which includes audible notes and comments recorded during the survey.)

- Minimum Site Fee (includes two hours of surveying) ... \$ 250.00

- Hourly charge beyond first two hours

Senior Geophysicist \$ 100.00 / hour
Field Assistant \$ 35.00 / hour

- Report Writing \$ 70.00 / hour
- Mob/Demob \$ 1.50 / mile
- Per Diem \$ 85.00 / day / person

Fees for "RESIDENTIAL UNDERGROUND STORAGE TANK SCANS"

Private residences are scanned for shallow tanks and ancillary piping. Hand held magnetic and electromagnetic instruments provide a cursory scan usually sufficient for property transfers. Results are marked on the Site and described in a brief summary.

- Residence \$ 95.00 (\$ 85.00 if paid on Site)
- Mob/Demob \$ 1.50 / mile (after the first 30 miles)
- Per Diem \$ 85.00 / day / person
